Homework Assignment-0
Student Name: Jyothi Kadapala
Student ID: 02035892

Person ID	Problem	App/Website found	Likes	Don't likes	Improvements	Age	Gender	Education/ occupation	Comments [optional]
1	Spending a lot of time on phone.	Forest: Focus for productivity	Clean and simple design which makes it user friendly and easy to navigate. 2)Provides statistics that will show daily and weekly progress in terms of focused time.	Limited in terms of features. 2)Basic version is free but to get premium features it is relatively expensive.	Offering more pricing options for premium features could make the app more accessible. 2) Allowing integration with other apps and platforms could enhance the user experience.	21	Female	Student	
2	Finds it difficult to manage the time and getting the productivity.	Todoist	It has the flexibility of organizing tasks into projects and subtasks where we can have structured task management.	It is sometimes overly complex for managing very simple to-do lists.	Adding the ability to set task dependencies (where task B can't start until task A is completed).	32	Male	Engineer	

3.	Finds it difficult to organize all the travel plans and itineraries in one place.	Triplt	Consolidates all travel-related information, including flights, hotels, car rentals, and activities, into a single organized itinerary. 2)Ability to access travel details and itineraries offline is a significant advantage, especially when traveling in areas with limited internet connectivity.	Premium subscription cost as it is relatively high compared to the features it offers.	Expanding the features of the free version (basic version).	30	Male	Engineer	
4	Difficulty in tracking income, expenses, savings and want insights of financial health.	Mint	Automatically categorizes the transactions and provides an overview of your spending habits. 2)helps to keep track of the bills, including due dates and amounts, to avoid late payments.	User interface is not user friendly. 2)Occasional issues with syncing financial accounts, which can disrupt financial tracking.	Improving the app's user interface and user experience can make it more intuitive and user-friendly.	44	Female	Homemaker	

| 5. | Difficulty in managing stress, anxiety, and improve sleep quality. | Calm | Provides guided meditation sessions, breathing exercises, and mindfulness practices led by experienced instructors. | Technical glitches or issues with the app's performance. | Addressing and resolving technical issues to ensure a smoother user experience.
